

Repetition

BTT's Parent Corner

Things to think about:

- Make repetition fun
- Change the way you say the target word (e.g. up ball, down ball, kick ball, roll ball, bouncy ball)
- You might be bored but if your child is engaged, continue to practice
- Your child needs to hear the words several times before he/she can learn it

Repetition
does not
have to be
boring!

How to implement:

- Use a ball (repeat the verbs: kick, roll, etc.)
- Use a book (use flip flap books- repeat: open, more, knock knock, etc.)
- Use bubbles (repeat: open, bubbles, pop, one two three, more, etc.)
- Use playdough (repeat: roll, cut, squish, smash, poke, etc.)
- Use blocks (repeat: more, two, big, small, wow, up, tall, etc.)
