

When your child says a word during bath or dressing, you can add to it by describing what's happening.

“up”

“You put your arms up!”

“Wash”

“Yes, we are washing your hands.”

If your child makes a sound during bath, you can imitate it back or say the word you think your child was trying to say.

“ba”

“Bath.”

Imitate a child's vocalizations or words back to the child, and expand by adding new information or words.
